BUILD SOMETHING AMAZING
Introduction

Startup Zone (SUZ) supports new startups or existing businesses by connecting them with the space, resources, and support they need to grow. SUZ is led by a CEO and staff, and governed by a Board of Directors made up of diverse representatives of the business community.

While PEI’s economy has been fuelled by entrepreneurs for generations, the province has seen growth in the number of new entrepreneurial ideas and businesses in various sectors in more recent years. The Startup Zone has a leadership role to play in continuing to champion entrepreneurship in PEI and support entrepreneurs in incubating the development of new business ideas.
The Startup Zone is an impactful, collaborative space that endorses a thriving community of like-minded founders and entrepreneurs. We work hard to discover the needs of our entrepreneurs, and then provide a variety of programming, resources, and support required to start and grow their business.

The Startup Zone team is very proud of our 2023 achievements, and this annual report is the perfect opportunity to highlight our milestones and share what has been accomplished. In all our actions, our goal has been to keep founders first in all our decision-making, and this has led to an engaged, lively community of entrepreneurs, startups, and mentors within our space.

Startup Zone has the vision to grow the local economy through entrepreneurship, and it is our mission to empower entrepreneurs with innovative solutions and impactful ventures in order for them to reach their utmost potential. Our benchmark in standards has been raised over the past year, and we are excited to see what the future holds for what continues to be a positive trajectory for PEI’s ecosystem.

Lindsay Murray, CAE
Interim CEO, Startup Zone
The 2022 - 2025 Strategic Plan, ‘Connecting Entrepreneurs to Opportunity’, was created in December 2021 in collaboration with the Board of Directors and a hired consultant. This Strategic Plan identifies Startup Zone’s mission is to empower entrepreneurship in Prince Edward Island for 2022 - 2025. This is achieved by helping entrepreneurs navigate the resources and services available to them, and by supporting founders who have developed a business solution with high-growth potential in both the incubation and acceleration stages. While the Startup Zone’s primary focus will be on potential high-growth companies, navigation and support will be available to entrepreneurs from all sectors, experience levels, and geographic areas.

**Defined Strategic Priorities:**

- **Strategic Priority 1, Connections:** Supporting a growing number of entrepreneurs
- **Strategic Priority 2, Incubation:** Building the supportive community for incubation so startups can thrive
- **Strategic Priority 3, Acceleration:** Accelerating growth with a focus on investment-ready and revenue-positive companies.

STARTUP ZONE

2023 Milestones
OVER THE LAST YEAR

45+ Average ‘Start & Grow’ Resident Companies per month

3,600 Square-foot Co-Working Space

25+ Workshops and events to support the growth of our entrepreneurs

12+ Tours and presentations for Community Groups and PEI students

146+ Total mentoring & specialist hours

Equity, Diversity + Integrity is important to Startup Zone and we understand that more work in this area is needed. We are currently assessing our actions plans to further improve these numbers and develop even more meaningful KPIs.
ACHIEVEMENTS

Featured Resident Companies for 2023
Three Hippies Inc. is a software company that builds software that helps people. Our first product is a fraud-proof ticket marketplace Locarius.io which was launched in beta in the Spring of 2023.

**Year 2023 Achievements**

- **2023**
  - Moved from beta release to full-fledged product

- **20x**
  - Sales Revenue in 7 months

- **50+**
  - Events hosted every month

- **3,400+**
  - Accounts on the platform
An Adventure to Reading Mastery

QuestRead is a research-based reading game designed to increase motivation and achievement for elementary-aged children. Our AI-powered system adapts to your child’s needs, personalizes book content, and provides a fun, competitive environment that makes them want to keep reading.

QuestRead turns the chore of home reading practice into a fun adventure
Milestones

**PHASE 1**
Conceptualization and Initial Development in February 2023:
- Began as a concept.
- Progressed to developing a fully functional iOS application within the year.

**PHASE 2**
Introducing Product Features and Educational Impact:
- Interactive reading game tailored for children.
- Enhances reading motivation and achievement through competition and adaptive learning.
- Encourages building reading habits with research-backed practices.
- Offers parents detailed reports on their child's reading progress.

**PHASE 3**
Beta Testing and User Engagement:
- Conducted a successful initial beta pilot.
- Engaged over 100 families in at-home reading practice.
- Actively developing connections with family-oriented and educational organizations.
- Exploring potential partnerships for broader impact.

**PHASE 4**
Upcoming Launch and Service Expansion:
- Preparing to launch a subscription-based service.
- Set for an official App Store launch by the end of the current year.
trippl is a map-based itinerary planning app that allows DMOs to display their, quality, curated data in our tool on their websites and allows travellers to plan and map their route.

WHO WE ARE

ACHEIVEMENTS

1. Idea and Conceptualization – March 2023
   - Destinations need a way to promote their stakeholders, especially the small to medium sized operators
   - Standard web searches return mostly only those operators who can afford to pay to play

2. Figma Prototype and Validation
   - Iterated on idea with feedback from tourism associations on the East Coast and in Ontario

3. Working Proof-of-Concept
   - Brought working proof-of-concept to industry conferences for further validation and to fill the sales pipeline

4. Networking & Market Penetration:
   - 30+ potential clients in pipeline
   - First pro-bono client, Canada’s Food Island
   - First paid client, Annapolis Valley REN
A System That Works For You
A Simple, Effective, and Powerful Software made for Food and Beverage Manufacturers. Tracktile helps growing manufacturers go digital with simple end-to-end traceability, inventory and smart hardware.

WHO WE ARE
ACHEIVEMENTS
1. Product and Market Positioning:
   - Developed a software solution tailored for food and beverage manufacturers.
   - Focus on end-to-end traceability, inventory management, and integration with smart hardware.
2. Team Building and Expansion:
   - Successfully built a team of 11 people over the past year.
3. Product Development and Adoption:
   - Advanced the product in collaboration with early adopters.
4. Sales and Business Development:
   - Achieved $700k in active proposals within the sales pipeline.
5. Customer Reach and Expansion:
   - Expanded customer base across 4 provinces and continuing to grow.
PROGRAM MILESTONES
At Startup Zone, we understand that navigating the business landscape can be challenging. That's why we offer access to a network of experts and community partners who can provide valuable resources and connections. Our team is dedicated to helping startups find the one-on-one support needed to kickstart their business and tackle any unique hurdles along the way.

@startupzonepei
What Did We Do This Year?

Re-introduced and better defined our SUZ In-House Specialist Program

- One-on-one support and resources for unique business hurdles.
- Emphasis on personalized guidance and mentorship.
- Specialists’ contribution to startup acceleration and ecosystem growth.
- Tailored mentorship for each entrepreneur’s journey.
- Specialized support in several critical business areas (pricing models, financials, HR, etc.).
- Highlighting notable successes and achievements of the program.
But wait...
There is more
